

Sneak Peek

"Don't cry because it's over, smile because it happened."- Dr. Seuss

Anniversaire de l'école

7th July has always been an auspicious day in the history of Anubhuti. It was the day when the school, which was made in a recorded time of months, begun!! The day began with a dance which symbolized Goddess Durga. Later, Mr. Ashok Jain addressed the gathering. He shared some thoughts which were important for us as children and were expressed by our beloved Dadaji. This was a platform for the students to share their experiences they had at Anubhuti. The programme came to an end with a song sung

by class 10 girls. They were melodious and the song was heart touching. We missed our inspiring Dadaji a lot during the whole function but somehow managed ourselves, because the show must go on. Later in the afternoon a special lunch was organized by our dining staff. In the evening a basketball match was played between the staff and the students. The match was won by the staff.

- Priyesh Mutha, Grade X

Leaving a Green Mark

The strong bond Anubhuti has with nature was further strengthened on 10th July 2016 when the students of Israel rubbed their shoulders with the Anubhutians to plant some saplings. This culture of Anubhuti led the students of every class irrespective of their age to plant trees in and around the school for the betterment of the society.

The day we went for the tree plantation was very cloudy, it was drizzling but we were least bothered and continued with our tree plantation. Our Israeli friends were very excited to plant their saplings and place their name plates beside them. The enjoyment made everyone forget about the mud stuck on their hands and all the other irritations.

With a photo session we came to an end to this activity and were reminded about our duties towards the environment. This was a great step by the school to make the world a better place.

- Yash Mundhra, Grade XI

Stereo Hearts

Music has the capacity to captivate one's heart. There was a jugalbandi presented by Nikhil sir, Amritesh sir and their team. This was a special performance to let our Israeli friends know about our culture. It was a fantastic and a mind boggling performance. He sang ragas, aalapas, and taans. It was enjoyed by everyone. It was an energetic

performance which gave us an idea about classical music and Indian culture. It was followed by some songs sung by the students of Israel, which were melodious and were enjoyed by everyone. This activity brought out the fact that music is an essential part in every country of the world.

- Sanika Gupta, Grade VIII

Looking Beyond the Horizon

On July 11, we were privileged to have 10 students and 2 teachers from Israel as guests. They were from the Naandan School. During their brief stay, we gained rich knowledge of their lifestyle and culture. We had interesting chats, discussions, exchange of ideas followed by music. A day prior to their departure, we organized a farewell party

for the Nandaan team with their folk dance performed by our students, songs with reciprocation by them. Looking back, it was a very memorable time with them and we look towards more such programs.

- Raj Agrawal, Grade X

Lehitroait

Shalom! 11 July 2016, the students of Naandan school stepped in Anubhuti to experience a new culture and tradition which is completely different from that of Israel. Along with them we also got an opportunity to know and learn about their lifestyle. We arranged a musical assembly where we felt the rhythm of their songs which was very mesmerizing. We grasped a lot of knowledge about Kibbutz-Naan and Israel. On the eve of their departure, we gave them a sweet farewell in which we presented to them our token of love and so did they. The special event of that evening was the folk dance of Israel which was presented by the students of grades 11 and 12 under the guidance of

our dear principal J. P. Rao Sir. Students performed dances like Mayme Mayme, Hava Nagila and Karaguna which were enjoyed by the students along with our guests. It was a wonderful and a joyous experience and we all are going to cherish it.

- Tanu Kankariya and Nidhi Kankariya, Grade XI

A New Experience

Anubhuti has constantly been in touch with nature. From 25 to 29 of July, we the students of classes 5, 6 and 8 sowed turmeric in fallow fields in our campus under the guidance of Dr. Rajesh Kumar and Jayshree Akka. The special thing in this activity was that instead of sowing seeds, the mother rhizome was sowed, which itself acts like a stem. This was a very nice experience for us and we came to learn a lot of things by undertaking this activity. We would like to thank the school management for providing such an opportunity to us.

-Pranav Rathi, Grade VIII & Raghav Agrawal, Grade VI

Pirate's Life

On July 9th we had a Treasure Hunt, very well organized and coordinated, by the students of class 12. There were six groups and each group had an official and a team leader. The organizers were likely to be mischievous as they gave us tricky clues. There were seven clues in total and some letters were jumbled up in the clues for us to decode it in the end. We all enjoyed it a lot and learnt some new words which were written in clues. Group 5 bagged the first prize. The last and the final clue was the same for every group. It goes like "YOU WIN! EXPRESS YOUR JOY AND GONG THE BELL." Thank you to all the organizers for such a wonderful event.

- Agam Jain, Grade IX

AIR- N. E. W. S.

On July 15, we the students of grades 10 and 12 went for a field visit to All India Radio (AIR), Jalgaon, in order to enhance our knowledge about the radios. The visit enlightened the students regarding the functional working of a radio and also about AM, FM and Satellite reach of a particular frequency.

Afterwards, we were separated into groups along with the guides to take a look at the areas used for functioning. During this field visit we came to learn that the AIR is a non-profit making organization especially established to provide basic information to each and every part of the society. The field visit provided us an opportunity to gain

experience regarding the functioning of the AIR along with the specific knowledge regarding the radio. We thank Swagat Sir who played an instrumental role in organizing this visit for us.

- Charul Agrawal and Sakshi Gugale, Grade XII

Dumbles' Galore

On July 9, 2016, the Physical Education students of grades 9, 10, 11 and 12 visited the two well-known gyms of Jalgaon, Gold's Gym and Talwalkars.

We saw various equipment's used for training, gain/lose weight- the cross trainer, spin cycle and many more. After our trainer finished showing us the equipments, we all were given some time to try any equipment we desired to. We were also given time to dance on the beats of the music. Altogether we had a good time visiting the gym. We thank Shivam Sir for giving us this opportunity whereby we learnt the intricate details of the functioning and benefits of a gym.

- Rajsji Bafna, Grade XII

Milking out Information

The students of class 10 and 12 visited 'Vikas Milk Co-Operative', on June 27. We were given an opportunity to explore the environment of the company and its competitors.

We were also provided with data base and knowledge about the art of modern assembly lines used by the plant, along with various other techniques- to filter, store, purify, pack and verify the quality and assessments to distribute the product. We would like to express our gratitude to Swagat Sir, The Vikas Milk Co-Operative and the school management to provide us with an opportunity to enrich our minds with some valuable experience.

- Sejal Choudhary, Grade XII

CSR- Corporate Social Responsibility

We, the commerce students of class 10, visited the Gandhi Research Foundation (GRF) for our project on CSR. The GRF Coordinator Mr. Ashwin Zala took us around the place.. CSR exactly means doing good for the society and for the people. What GRF does as a part of their CSR is that they go to different villages and create awareness regarding cleanliness, hygiene, etc. They even conduct many sanitation programmes. They invest a lot of money in their CSR and are trying to educate a lot of people.

So all that we learn is, more than profit our CSR should be at a higher level only then is a company worth developing.

We thank Swagat Sir for giving us this opportunity to practically learn about CSR. We also extend our thanks to Dr. D. John Chelladurai, Dean of GRF and the school management to have given us this great learning experience.

- Muskan Khandelwal, Grade X

Tissue Culture Plant

All the biology and biotechnology students of class 11 and 12 visited the tissue culture lab on 22nd July. We were accompanied by Snehal Akka and Jayashree Akka for our educational trip. We reached there by 3:30 in the afternoon and spent 2 hours in the lab.

During our visit we had an interaction with Dr. Patil, who provided us with all the basic information about tissue culture. We learnt all about the initializing process, sterilization process called the induction and the development process. We observed the variety of instruments required in tissue culture. It included Laminar Air Flow, Autoclave, Incubator, Stirrer, PH Meter, etc.

In addition to this we collected a lot of information about mother nursery, sucker induction process, virus indexing, primary and secondary hardening process, etc. It was a very wonderful experience for all of us.

- Kunjal, Nandini and Neeraj, Grade XI

Frank Anthony Memorial Debate Competition 2016

I along with my fellow classmate Sumiran Dafare was blessed to have an opportunity to participate in the debate held in Pawar Public School, Mumbai on the 15 of July. Ten more schools had participated in the competition. The motion of the day was "I have the power of the people with me." I spoke in proposition while Sumiran chose to speak in opposition. Our speeches were followed by a two minute rebuttal session in which fellow competitors asked us complex questions to which we tried our level best to answer smartly.

Likewise, another debate competition was held in Mumbai on 22 July in Sulochanadevi Singhaniya School. It was a debate where students of class 11 and 12 were allowed to participate. Darshan and I participated in this debate. Our first topic was "Our education system has ignored the shift to make more employment creators."

It was a great competition. We got to learn a lot and hear many wonderful debaters.

- Riya Jain, Grade X and Akanksha Asnare, Grade XI

Light Away

On 3rd July, the students of class 12 went for their educational fieldtrip to JAIN SOLAR POWER PLANT in JISL. Mr. Manoj Bhangale, Officer in Charge of the Jain Solar Plant, accompanied by Pandey Sir guided us. After our interaction ended we were served with sumptuous snacks. The return was a bit different as we all returned on a tractor. We stopped near the 100 year old Banyan tree and enjoyed climbing trees and moving to and fro on the branches. We again started over and reached the school. On the way to school it rained and a mini concert was held on the tractor itself. All the students were amazed to see us travelling in a tractor. In short, it was a mini-one day trip for all of us.

- Bhargav Chowdhary, Grade XII

Fresh in the Farm

Visiting places and interacting with people is the best way we can learn something. On 9th July, 2016 the commerce students of class 9 and 10 had the privilege to visit the Jain Farm Fresh and Onion farm. Learning about their recruitment, selection and placement procedure was a very interesting part about the visit. They showed us how their production process goes on, both manually and by machines. We interacted with Mr. Sunil Deshpande, Director Farm Fresh, regarding the Production, Purchase, Human Resource and Marketing of Farm Fresh. We went to the Mango Pulp Making and Onion Plants, where we learned the manufacturing process, quality analysis, packaging and

dispatching of the product. We are grateful to Swagat sir, Deshpande sir and the school management for having given us this opportunity to get firsthand knowledge.

- Aayush Patni, Grade IX

Aashadi Ekadashi

A special assembly was held on the occasion of Aashadi Ekadashi which was organized by Harshal sir and Neerja akka. On this day we learned about the importance of Ekadashi in the state of Maharashtra. We learned how the Vaari of Lord Vitthal is carried away in Pandharpur. On this occasion our friends from the lead group sang various songs signifying Ekadashi and Lord Vitthal. A special lunch was prepared by the dining community. In addition to it our lead group performed several songs in the Kantai Hall of Jalgaon.

- Vedant and Shreeraj, Grade VIII

Distinctive Dialect

Language plays a vital role in our day to day activities. We need to have command over the language we communicate in. In order to instill the importance of the language and hone the skills our school dedicates a full week to a particular language. We had the English week from July 18 to July 23. We made beautiful charts based on English quotations. Special assemblies were organized based on oratory skills, narration, Anagrams and Shakespeare's life. The assembly based on songs was fun filled. The first activity of the week was a JAM session. It was very interesting. The participants expressed their thoughts on different topics. Fantastic quiz assemblies were held by different classes and it was fun cheering for our class. The

session on poem recitation and story-telling kept us glued. The best part about the English week was the debate. It ended with wonderful quotes and morals. Last but not the least the caption writing made us think creatively. It was really a great learning experience! Thanks to our lovable teachers, friends and everybody who made the week a fruitful one.

- Aditi Kumar and Dhruvi Lunkar, Grade VIII

News Flash

- On 1st of July, on the occasion of Doctor's day, Dr. Sameer and Dr. Snehal, organized an assembly highlighting the importance of doctors in one's life and personal hygiene.
- Kudos to our football team for winning the Sports Subroto Mukharji Cup for the football matches held in Jalgaon City on July 20, 2016.
- The U14, U16 and U17 Badminton Students Participated in the ICSE and ISC Badminton Matches held in Mumbai on July 15th.
- A Special Assembly was organized by Harshal Patil Sir to make children aware about the role of Monsoon in one's life.
- Tree plantation day, i.e. 1st of July, was celebrated on a big scale by all of us in and outside Anubhuti to continue with our responsibilities towards nature.

Sayonara!

Change is the only truth in this world constant. One has to modify according to the latest trends in the society. Change helps a person to give them a break from the monotonous elements. It transforms their minds and paves a way to their hidden ideas to come up and satisfy society.

Being a part of the editorial team of the newsletter is a tough job both for students as well as teachers. A lot of responsibilities are put on their heads but eventually it is an activity which helps the students to enhance their literary skills. It gives them an exposure to the much-awaited world and the contrasting people. In order to implant these skills we would love to hand over the responsibility to our juniors from Grade 11.

Our journey as editors can be described as 'Tempestuous'. Not so experienced, we started and faced many challenges but after all, challenges are the stepping stones to success. A special thanks to our teachers, Priya Akka, Neerja Akka, Raghavan Sir and Susha Akka, who constantly helped us throughout the journey.

We would love to express our gratitude to our Administrators Upasni Sir and Mahatre Sir for always considering our frequency to visit Jain Hills for the layout of the Newsletter.

There are some people who worked like ROBOTS, as we were the ones who gave them the command and they followed. We would like to express our Heartfelt Gratitude to the computer Wizards Shashikant Sir, Jagdish Bhaiya and Mahesh Bhaiya.

Teamwork is an essential element. A year ago we inherited the newsletter as successors of Amey and Anshuma, now the time has come to pass on the responsibility to our successors. We wish Abhang Jain, Radhika Rath, Akanksha Asnare, Aman Deshmukh and Govinda Rayudu, all the very best. At last, we thank you for holding the newsletter in your hands right now. The newsletter is meant for you.
